

Education

Rhode Island School of Design

2021- Present

Master of Fine Arts - Ceramics

Internationally recognized program that focuses on refinement of artistic practice and professional development. Research, experimentation, and critical analysis are promoted in consultation with faculty advisors: Katy Schimert, Lesley Baker, Matthew Katz, Anina Major, Anne West, Forrest Snyder, Nicole Cherubini, Nicholas Oh

Certificate in Collegiate Teaching in Art and Design

Certificate acknowledging the study and practice in the area of collegiate-level studio and pedagogy.

Florida Atlantic University

2019-2021

Postbaccalaureate

Nationally recognized program that allows for further development of artistic language, practice, and techniques in consultation with faculty advisors: Michaela DiCosola, Thomas Stollar Ph.D., Julie Ward

Bachelor of Fine Arts - Ceramics - Summa Cum Laude

Nationally recognized, rigorous program that focuses on the development of foundational artistic techniques, conceptual thinking, and professional development. Ceramic concentration includes ceramic material science, history, 3d modeling, kiln repair and utilization. Faculty Advisors: Michaela DiCosola, Thomas Stollar Ph.D., Julie Ward, Amber Tutwiler, Brian McConnell Ph.D., Joseph Velasquez

Teaching Experience

Instructor of Record: Humanity Through Ceramics

2022 - Present

Rhode Island School of Design, Providence, RI

Responsible for instruction of students from various departments and degree levels (Undergraduates to Graduates). Course provides foundational techniques, history, and safety procedure in Ceramic context while incorporating interdisciplinary experimentation through the lenses of the human body, emotions and relationships.

Handbuilding Ceramic Instructor

2022

Worcester Center for Crafts, Worcester, MA

Responsible for the instruction of students from various age ranges and skill levels. Course provides foundational techniques, safety, and history to students while promoting critical analysis and direction for growth. Demonstrations on pinch technique, coil building, slab building, solid-hollow, and glaze application covered throughout the course and built upon each other.

Teaching Assistant

2021 - Present

Rhode Island School of Design, Providence, RI

Provided teaching-related assistance to primary instructor by mixing clays and glazes, firing student work, monitoring classrooms, and conducting demonstrations/presentations. Directly supported students in understanding coursework, developing technical skills, and providing feedback throughout the course. Courses include: Topics in Material Sciences, Intro to Ceramics for Graduate Design, and Ceramic Sculpture.

Teaching Experience cont.

Ceramics Instructor

L' Mercado Studios, Hollywood, FL

Responsible for the instruction of students ranging from children to adults with varying skill levels. Courses provide wheel throwing, hand-building, and glaze application techniques that promote confidence and growth in the students skills.

2018-19

Professional Experience

Hyundai Biomaterials Assistant

Edna W. Lawrence Nature Lab, Rhode Island School of Design, Providence, RI

Manage the Bio-maker Space at the Nature Lab. Conduct workshops for students and faculty on bio-design. Oversee and instruct faculty and students on the use of 3d printers, ASTM material testing equipment, and lab equipment. Provide support and information on the development of bio-based materials to students and faculty. Directly assist Director, Staff, and Hyundai Fellows with conducting research and provide support for the Nature Lab.

2022 - Present

RISD x HYUNDAI Research Fellow

Rhode Island School of Design, Providence, RI

Conducted individual research focused on sustainable material development, 3d modeling, and improving current industrial methods in ceramics, metals, and glass as part of the RISD X Hyundai Collaborative. Collaborated with a team of student researchers in the course Digital Ceramics and Digital Materiality, led by faculty Lesley Baker and Hyundai Research Fellow Felipe Shibuya Ph.D., on topics of materials, sustainability, and generative design. Utilized concepts in Bio-mimicry, Visual Coding through Grasshopper, 3d modeling, and chemistry to achieve innovative ideas and breakthroughs.

2022

Ceramic Technician Assistant

Rhode Island School of Design, Providence, RI

Directly assist the Ceramic Technician in the maintenance, repair, and construction of equipment (i.e. kilns, sanders, mixers, saws). Monitor Ceramic Department and its equipment for the Ceramic Technician. Complete tasks for the Ceramic Technician including daily maintenance, construction, and installation of new equipment. Ensure facilities are being used safely and procedures are followed.

2021 - Present

Custom Picture Framer

Gallery Framers, Boca Raton, FL

Assist a wide range of clientele to design displays to make their art stand out and fit in with their business or homes. Construct custom frames and handle the art from beginning to completion. Deliver and install artwork and mirrors of all sizes in various residences and businesses.

2019-20

Studio Monitor

L' Mercado Studios, Hollywood, FL

Oversaw studios space and assist owner and artists load kilns, fire kilns, glaze student work, operate the cash register, and help clients. Manage phone calls, contact customers, and organize appointments for classes. Maintain studio supplies and gallery space.
